

The Experimental Aircraft Association (EAA) requests FAA Exemption # 3784J, DOT Docket No. FAA-2001-8939 be renewed for an additional two years.

The exemption continues to be in the public's interest.

EAA feels this program is imperative to the safety of the ultralight movement. As of this date, EAA has 616 Ultralight Flight Instructor's (UFI's) and 60 Ultralight Flight Instructor Examiner's (UFIE's) operating under the terms of this exemption. These instructors and examiners are providing flight training to over 7,100 Ultralight pilots.

Please contact Timm Bogenhagen, EAA Ultralight Programs Manager at 920-426-6527 or e-mail: tbogenhagen@eaa.org with any questions or other issues you may have with this renewal petition.
